The Indian Mounds Rock & Mineral Club meets at 7 pm the 3rd Tuesday of each month at Blandford Nature Center. Our objective is to develop and encourage interest in, and to further the study of minerals, gems, fossils, rocks, lapidary arts, and earth science. We do this by sponsoring a variety of speakers, holding demonstrations, hosting sales and auctions, hands-on activities for children, field trips, and developing relationships with others who share their experience and knowledge of collecting and working with gems, minerals, and fossils. Visitors are welcome at our family-friendly club meetings. Membership is required to attend field trips.
